

A cricut machine was recently donated to the center.

Find out *what* it is and *how* to use it. Then when you want to use it to make special projects, such as invitations, greeting cards, posters, etc., you'll have the knowledge, experience and access to it.

On the first two Tuesdays in February, the 3rd and 10th, we'll use it to make Valentine decorations and cards and will brainstorm for possible future projects.
